

Glenn Preston – Senior Facilitator & Consultant

Location: Vancouver

Glenn Preston is a highly knowledgeable and skilled learning specialist with the ability to design, build and facilitate training solutions that work. He is a strong leader with a proven expertise in organizational behaviour, andragogy, learning design, learning technologies and project management. His background includes over 30 years in all areas of Adult Education and the use of technology. His experience is far reaching and includes both public and private organizations; covering management, consulting, operations, business and systems analysis.

Glenn enjoys facilitating in intimate coaching environments on a one-on-one basis or with larger groups/teams. He has exceptional facilitation skills and enjoys working with people. He is committed to helping an organization improve human performance through life-long learning.

Glenn is a member of the Canadian eLearning Economic Alliance (CeLEA) and was a member of the B.C. Premiere's Technology Council on eLearning. Glenn has been a public speaker and facilitator throughout North America especially in the areas of Information, Technology and Leadership/Team Building. For Seneca College of Applied Arts and Technology, as a teaching master, he developed and facilitated courses for the Office Administration and Continuing Education Divisions.

Glenn has worked for numerous organizations in a Training Manager and Management Consultant capacity. His consulting skills include the analysis, creation, implementation and facilitation of major projects to improve human performance, knowledge and processes. His clients have included Best Buy Canada Ltd., ACL Services Ltd., People's Trust, The Toronto Transit System, AMR Services (American Airlines) and The Government of Ontario.
